

HOSPITAL DATABASE

Ayaan Khan | February 5, 2021

There is no weak entities because every entity has a key attribute and they all can be identified uniquely by considering the primary key. All the entities present in the database are Strong entity.

I used an online tool Lucidchart to make this ER Diagram.
The link for the ER diagram is : <https://lucid.app/lucidchart/invitations/accept/0e013067-b03f-4f5f-bbac-bf1089cca2fe>
